

Coroner
00100.843.

Mission Statement

To accurately determine the cause, manner, and mechanism of death for all cases that fall under the jurisdiction of the coroner by conducting the highest level of professional medico legal death investigation services.

Function

The coroner is responsible for investigating and certifying the cause and manner of death for certain types of death occurring within the county. The coroner relies on assistance from law enforcement, doctors, medical staff, hospice workers, forensic pathologists, forensic anthropologists, forensic odontologists, regional medical examiners, investigators, family members, and next of kin to accomplish this work.

Trends/Events

Trends

- As the county's population increases, and with changes in societal behaviors, there have been more calls for service on an annual basis. In 2014, there were 183 deaths reported to the coroner's office and there were 322 cases reported to the office in 2024.
- Overdose deaths have been trending upwards over the last 10 years but spiked sharply in 2021 with 34 total overdose deaths. This doubled the previous 10-year high set in 2016. Overdose deaths continue to increase with a new record set in 2023 with 45 overdose fatalities, though falling to 31 deaths in 2024. Currently, Clallam County is ranked the 13th highest county per 100,000 for fatal drug overdoses.
- Suicides deaths have remained steady the past several years with 24 occurring in 2024 and 10 between January and June 2025.
- Accidental deaths (excluding drug overdoses) are declining from 2023 with 27 such deaths in 2024.
- Increasingly complex death scenes are requiring more time spent out of the office and on scene conducting death investigations.

Events (first six months of 2025)

- Coordinated 37 autopsies - 28 of those autopsies with the Thurston County Coroner's Office and 9 with the King County Medical Examiner's Office.
- Prioritized scene responses for more thorough death investigations.
- Continued to investigate and process indigent remains claim packets from the Human Resources Department.

- Deputy Coroner tested for Registry certification through the American Board of Medicolegal
- Response truck went into service at the start of February 2025 greatly reducing the cost of third party recovery, greatly reducing time spent on scene due to quick responses, and increased professionalism due to no personal vehicles used

Goals

- Continue to increase our presence at death scenes for more thorough death investigations.
- Maintain full staffing within the Coroner Division.
- Hire a third Deputy Coroner Death Investigator to provide higher level of care 24/7/365.
- Obtain a cooler unit for body storage to reduce our reliance on third party providers for body storage.
- Obtain/maintain certification for all Deputy Coroner's by attending the state Basic Death Investigation course.
- Collaborate with community stakeholders to identify and respond to issues and concerns related to death investigations.
- Continue the process for monitoring and reporting statistics to public health disciplines and the public using MDI-Log.
- Participate in all county Emergency Management Meetings that involve the work of the Coroner's Office.
- Continue preparing a mass casualty deployment plan for use in connection with a natural or man-made disaster.
- Continue efforts to achieve all required standards of performance to achieve accreditation.
- Re-evaluate compensation for all positions to ensure the office remains competitive in the labor market.

Challenges

- Limited availability of forensic pathologists and forensic autopsy technicians creates a challenge in scheduling autopsies and now necessitate autopsies to be hosted out-of-county.
- The lack of a second coroner vehicle and body refrigeration unit requires the division to rely on third party providers for transportation out-of-county and body storage at significant cost to the county.
- Relying on third party providers complicates scheduling autopsies as they must be coordinated between the Coroner's Office, the forensic pathologist, the autopsy facility, and other third party providers.

Workload Indicators

	2023 Actual	2024 Actual	6/30/25 Actual
Total Coroner Cases	335	322	175
Autopsies	77	62	37
No Autopsies	258	260	138

Grant Funding Sources

This fund does not receive any grant revenue. State reimburses 40% of pathologist costs for autopsies. The state reimburses 100% of costs relative to the death of a child under 3 years of age.

RCW 68.50.104 Cost of Autopsy - (1) The cost of autopsy shall be borne by the county in which the autopsy is performed, except when requested by the department of labor and industries, in which case, the department shall bear the cost of such autopsy.

(2)(a) Except as provided in (b) of this subsection, when the county bears the cost of an autopsy, it shall be reimbursed from the death investigations account, established by RCW 43.79.445, as follows:

(i) Up to forty percent of the cost of contracting for the services of a pathologist to perform an autopsy;

(ii) Up to 30 percent of the salary of pathologists who are primarily engaged in performing autopsies and are (A) county coroners or county medical examiners, or (B) employees of a county coroner or county medical examiner; and

(iii) One hundred percent of the cost of autopsies conducted under RCW 70.54.450. (iv) Up to 40 percent of the cost of transportation of remains to and from facilities accredited pursuant to RCW 36.24.210 for the purpose of autopsy services.

(b) When the county bears the cost of an autopsy of a child under the age of three whose death was sudden and unexplained, the county shall be reimbursed for the expenses of the autopsy when the death scene investigation and the autopsy have been conducted under RCW 43.103.100 (4) and (5), and the autopsy has been done at a facility designed for the performance of autopsies.

(3) Payments from the account shall be made pursuant to biennial appropriation: PROVIDED, That no county may reduce funds appropriated for this purpose below 1983 budgeted levels.

(4) Where the county coroner's office or county medical examiner's office is not accredited pursuant to RCW 36.24.210, or a coroner, medical examiner, or other medicolegal investigative employee is not certified as required by RCW 36.24.205 and 43.101.480, the state treasurer's office shall withhold 25 percent of autopsy reimbursement funds until accreditation under RCW 36.24.210 or compliance with RCW 36.24.205 and 43.101.480 is achieved.
